EDUCATION

KIET Group of Institutions, Ghaziabad

B.Tech in Computer Science and Engineering (AI) - CGPA: 7.8

2023 – Present

Ghaziabad, Uttar Pradesh

PROJECTS

Twitter-Sentimental-Analysis-Masters [↗](#) |

Mar 2025 - July 2025

- Developed a Twitter Sentiment Analysis system to analyze public opinions from real-time Twitter data using Natural Language Processing (NLP).
- Extracted live tweets using the Twitter API and performed text preprocessing to remove noise and irrelevant content.
- Extracted live tweets using the Twitter API and performed text preprocessing to remove noise and irrelevant content.
- Calculated polarity and subjectivity scores to measure emotional tone and opinion intensity.
- Aggregated sentiment results to identify overall sentiment trends across multiple topics.
- Generated structured outputs suitable for data visualization and business insights using tools like Power BI.

Volunteer Registration [↗](#) | Spring Boot

July 2024 -Nov 2024

- Developed a full-stack task management application using Java and Spring Boot for backend REST APIs and React, HTML, and CSS for the frontend.
- Designed and implemented RESTful APIs to handle task creation, updating, deletion, and status tracking.
- Implemented complete CRUD operations to manage tasks efficiently.
- Integrated frontend and backend to ensure smooth data flow and real-time updates.
- Used Spring Data JPA for database interactions and followed a layered architecture (Controller, Service, Repository).
- Ensured clean, maintainable, and scalable code structure.

Task Tracker [↗](#) | Built a full -stack task management app using Spring Boot

jan 2024 - april 2024

- Developed a full-stack task management application using Java and Spring Boot for backend REST APIs and React, HTML, and CSS for the frontend.
- Implemented CRUD operations to create, update, delete, and track task completion.
- Designed RESTful APIs and integrated frontend with backend for seamless data flow.
- Used Spring Data JPA for database interactions and clean layered architecture.

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, SQL

Technologies/Frameworks: React, MongoDB, Express, Pandas, NumPy, Matplotlib, Seaborn

Developer Tools: VS Code, PyCharm, Power BI, Tableau, Excel, Eclipse, IntelliJ, Canva

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 certified AI Foundations Associate (Aug 2025)
- AWS AI Practitioner (may 2026)

ACHIEVEMENT

- 1st Place, 24-Hour iOS Hackathon (2026) – Outperformed 50+ teams with SwiftUI + MVVM app (SmartOrbit)
- Solved 300+ DSA problems across multiple platforms
